

Summer Activities for Wednesday

On the Move

Lemonade Scoop

Hot days and lemonade go hand-in-hand with this fine motor activity.

Materials:

- Large plastic bowl or container
- Cups
- Cooking Ladle or Spoon
- Lemon Slices

Instructions:

1. Fill the large container or bowl with water and add your lemon slices.
2. Provide your child with the ladle/spoon and various cups.
3. Ask your child to scoop out the "lemonade" and fill the cups.
4. Pour the water and lemons back into the container once the cups have been filled and repeat!

Adventures Online

Tobie Goes Camping

Go on a camping adventure and talk with your child about the things he/she sees. Provide them with information about the things seen throughout the camping adventure.

Sensory Time

Summer Trail Mix

Take a break and enjoy a snack of summer colors.

Materials:

- Fruit Loops
- Goldfish
- M&Ms
- Pretzels
- Chex
- Cheerios
- Large mixing bowl
- Large spoon

Instructions:

1. Assist your child in helping to pour each ingredient in a large bowl.
2. Using the large spoon, mix the ingredients together.
3. Enjoy your snack! Take a break outside to enjoy the sunshine on a summer day.

Story Time

Sunny Day

Come celebrate the 50th anniversary of Sesame Street with a read aloud featuring the iconic Sesame Street theme song.

Arts and Creativity

Paper Plate Beach Ball

This beach ball craft is a fun and colorful way to celebrate summer.

Materials:

- Large paper plate {one per beach ball craft}
- Picture of a beach ball
- A variety of colorful paper (tissue paper, construction paper, cardstock)
- Black marker
- Glue
- Child-friendly scissors

Instructions:

1. Using the marker, outline the different sections of your beach ball on the large paper plate.
2. Using the paper of your choice, cut a small amount of paper into small squares and keep in separate piles by color
3. Apply glue to a section of the divided paper plate and decide which color paper you and your child would like to start with. Remember to make each section a different color.
4. Place the pieces of paper on top of the glue until the section is completely covered.
5. Repeat this process until each section is completely covered with paper.
